📍 Room 512, Bldg. Engineering 6, Kangwon National University

RESEARCH INTERESTS & DOMAIN

Human-Computer Interaction (HCI), Human-AI Interaction, Ubiquitous Computing, User Interruptibility-aware intelligent systems design

EDUCATION

Kangwon National University (KNU), Chuncheon, Republic of Korea Mar. 2025 – Present

M.S. in Data Science, Adviser: [Auk Kim](#)

- **Coursework:** Machine Learning, Data Analysis, Human-Computer Interaction

Kangwon National University (KNU), Chuncheon, Republic of Korea Mar. 2021 – Feb 2025

B.S. in Computer Science and Engineering

- **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning, Mobile and Web Development

EXPERIENCE

Human-AI Interaction Lab ([HAI Lab](#)) May 2024 – Present

M.S. Candidate, Advised by Prof. [Auk Kim](#)

- Conducting research on interruptibility-aware intelligent systems and proactive services in smart home environments.
- Designing and developing multimodal sensor-based systems for collecting contextual behavioral data in domestic environments.
- Investigating how spatial, temporal, audio, and visual contextual signals can support context-aware interactive systems and human-centered AI.

PUBLICATIONS

U: Under Review

[U.1] “A Multimodal-context Interruptibility Dataset for Proactive Services on Smart Speakers at Home”

Golibjon Sunatullaev, Jiwoo Hwang, Jungmin Lee, Dongju Son, Kyung Ho Son, and Auk Kim

Scientific Data, 2026.

AWARDS & HONORS

Global Korea Scholarship (GKS) 2021 – 2025

Full Scholarship for Undergraduate Studies

Republic of Korea

SKILLS

Programming Languages : Python, Java, C, HTML/CSS, SQL

Machine Learning : Pandas, NumPy

Hardware Prototyping : RaspberryPi

Tools & Platforms : VS Code, Jupyter Notebook, Google Colab, Android Studio, GitHub, Notion
